Subject: Career Development Opportunity

I am writing to request your support in completing the BICSI credentialing program and earn recognition as a "BICSI Installation Professional".

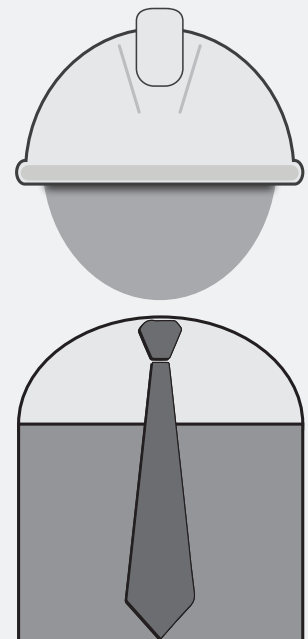

BICSI established its credentialing program to provide a level of assurance to the industry and to consumers that an individual has knowledge in a designated area of ICT installation. BICSI's designations are globally valued and are recognized throughout the ICT industry.

You can learn more about the program by visiting www.bicsi.org/installation

Thank you for considering supporting my professional development through the BICSI Credentialing Program.

Kind regards,

- Installer 1
- Installer 2, Copper
- Installer 2, Optical Fiber
- Technician

“

Holding all four BICSI Installation Credentials has really raised my level of confidence in the field, from preparing Terms of Reference (TORs) for projects to speaking knowledgeably to my clients. Being a BICSI Installer and Technician is continuously providing me with new opportunities.

Francis Richard Gregory Krosendijk, BICSI Installer 1; BICSI Installer 2, Copper;
BICSI Installer 2, Optical Fiber; BICSI Technician - Aruba
